Invitation

to a presentation by

Vladimir M. Sedivy

on Wednesday, 7th March 2018 at 16:00 at the EuSalt 2018 General Assembly and Conference
"Roadmap to the Future", organised by EuSalt in Hotel Pullman, Basel, Switzerland.

Introducing a Revolutionary Method of Prospecting for Salt ATS Electro-Seismic Mapping of Salt Deposits, Swiss Salines, Riburg, Switzerland

The method determines the location of the top and bottom of a salt layer and its profile with an accuracy of about one meter. It is fast, accurate and significantly more economic than conventional explorations.

The presentation will be published on Salt Partners website: www.salt-partners.com/publications.htm.
For conference details and registration click <https://saltmeeting.eu/programme.html>
